#### McChesney Announces For Governor

Frankfort, Ky., March 6.—H. V. McChesney, formerly Superintendent of Public Instruction in Kentucky, and later Secretary of State, has entered the race for the Democratic nomination for Governor, his platform being in the main, the advocacy of the submission of a constitutional amendment prohibiting the manufacture and sale of liquor in Kentucky.

Mr. McChesney, it is understood, was agreed upon as a candidate on this plank several days ago by the advocates of State-wide prohibition.

Mr. McChesney has for a number of years been a close personal and political friend of Senator J. C. W. Beckham, and the friends of Mr. McChesney, say that Senator Beckham, who is now in Florida, will take the stump for Mr. McChesney upon his return.

In his announcement Mr. McChesney says that if nominated and elected he will urge State-wide prohibition, but will favor giving men engaged in the liquor business a reasonable time to get out of business.

The entrance of Mr. McChesney into the Governor's race upon this platform was rumored in Louisville Friday, together with the fact that Mr. McChesney would probably have the support of a considerable portion of the Beckham wing of the party.

The other announced candidates for the Democratic nomination for Governor are Mr. E. J. McCormick, Mr. J. W. Newman, Mr. Henry Bosworth, Mr. H. H. Cherry and Mr. A. O. Stanley.

The nomination for Governor will be made at the State primary in August, or nearly four months away. In the meantime, it is freely predicted, an elimination of candidates will come and the race will eventually narrow down to two men. Mr. McChesney's supporters seem to have no doubt that he will be one of the two contenders, but the best-informed observers think it may be several weeks before it will be known which of the other candidates will be contending against Mr. McChesney.

That a hard fight inside the party is looming up is disputed by none. The McChesney men claim that the State-wide prohibition issue is a winning card, while others think that a candidate with a record favorable to the county unit bill could stand to that measure and secure the support of all opposed to State-wide prohibition as well as many temperance men who think the county unit bill preferable at this time.

#### Marion Notes

From Enterprise

William Everett Parrott, age 23 years, son of Steve Parrott, and Miss Mary Catherine Farmer, age 20 years, daughter of Joseph Farmer were married in this city last Thursday.

George F. Skaggs, a farmer of Large county, and Miss Maggie Beard of Taylor county, were united in marriage in this city Wednesday. Mr. Skaggs is 45 years old and has previously been married and divorced. The bride is 32 years of age and a daughter of Frank Beard.

In the Circuit Court in Louisville last Saturday, Stella M. Dye was granted a divorce from Paul B. Dye on the grounds of cruelty and abandonment. She was awarded alimony in the sum of \$85 per month. According to plaintiff's petition they were married in this county on December 2, 1913 and lived together until March 2, 1914.

Miss Nettie Brimm, the 16-year old daughter of Mr. and Mrs. J. T. Brimm, was painfully burned about the hands and arms a few days ago while cleaning a pair of gloves with kerosene. In some manner the gasoline ignited and before the flames could be smothered her hands and arms had been painfully burned. A physician was called and dressed the injuries, and she is now getting along as well as could be expected.

Charles R. Harmon, the well known farmer, has lost three head of horses within the past two or three weeks, death in each instance being attributed by the veterinarian in attendance to meningitis. The disease is said to be caused by bad fodder, swamp grass or bad corn and for it there is said to be no cure. The horses were valued at \$500. Other farmers have also lost stock from the same disease.

Curtis Dilly, the young son of W. O. Dilly, a division official of the L. & N. Railroad Company, met with an accident Monday afternoon which it was thought for a while would result in the loss of the sight of his right eye. However, the physician who gave attention to him, now thinks the accident will not result seriously. Young Dilly and several of his companions, while returning from school Monday afternoon, playfully engaged in a box fight at the home of one of the boys on West Main street. During the battle one of the boys struck Curtis in the eye inflicting an ugly wound. He received prompt medical attention and yesterday was getting along as well as could be expected.

#### Big Frost for May 28

The following was received by the postmaster in Louisville a short time ago, written upon a postcard from Denver: "Looking out and prepared for a killing frost on the morning of May 28, 1917. The old saying is, a foggy morning in December, brings a big frost in May."

front in May—this I noticed once in the state of Nebraska in 1893—as I notice in the daily weather reports. So I thought I would drop you a line in this matter; otherwise 1915 will be a year for bumper crops as it was for 1914 for the United States."

#### Mentioned for Congress

Since his formal declaration of the issue as a candidate for Governor in the August primary, it being "moraled" around that Attorney General James Garret was mentioned for Congress last year but at that time he had the gubernatorial "bug" and gave it scant consideration.—Louisville Times.

Before you sow your Tobacco seeds, be sure you are sowing the kind of Tobacco seed that rings the Top Price of the tobacco crop. This was grown from my Pure White Barley seed has topped the market almost every time it has been sold this year. Remember all of my seed was graded with a Tobacco seed grader. They cost you about ten cents per acre to plant your own crop. If you want seed that you will be pleased with your crop, come in and get a package. Price \$1.00.

#### Frolicsome Jurors Fired

A ripple of excitement was created at Tanna, Miss., the other day, when Judge Alcorn discharged the jury which was sitting on a negro murder case. The jury was out for an airing when one of the jurors called the attorney to a game of "cray frog." He accepted and the contest began. Other jurors joined in. At this time the judge appeared on the scene and called them into court. The attorney and one juror were fined \$10 each. The bailiff was fined \$25, and all other jurors \$5 each. The entire jury was discharged and a new one impaneled.

#### Urgent!

There are an abundance of reasons why we should have good roads, even under normal conditions. But there are urgent reasons why we should have them this year, when conditions are expected to far surpass even those of normal times. Our roads must be in condition for prompt harvesting of the great crops which the world is demanding of America this year.—Nashville Bulletin.

#### Annual Easter Sale

The ladies of the Presbyterian church will have for sale cakes, dressed hens and ham etc. Saturday, April 3 at the Court House.

A. C. Kimball has for sale a good second-hand one horse wagon.

#### The Tobacco Growers

The announced purposes and disposition of the Tobacco Growers' Association, at its organization meeting at Lexington, justify the hope that his body is to have a happier and more generally beneficial career than its predecessor. The most gratifying feature of the meeting on Tuesday was the pointed departure from any programme of coercion, either upon the unallied grower or buyer. Instead, if the founders' declarations are to be accepted, the unallied grower is to be let alone, and the manufacturer is to be invited to co-operate for mutual benefit. This is the only solid and enduring basis for such an organization.

The assurance of thorough-going co-operation already received from the three largest tobacco manufacturers in the county, contributes to the belief that at least some of the problems of the grower are on the way to solution. Friendly and mutually beneficial relations between the association and the larger buyers will remove the occasion for any heroic treatment of the grower who prefers "or one reason or another, remain out of the organization."

It cannot be made too plain that although the body is being organized by Barley growers, privilege of membership is extended to all growers in the State. If the activities of the association are intelligently directed, along the lines and in the spirit indicated in the organization meeting, a genuine need will be met, and met in a fashion exempt from criticism.—Courier Journal.

#### Only 18 Counties Fail To Ask State Aid For Roads

Frankfort, Ky., March 4.—Only five counties outside a group in the mountains have failed to ask for state aid within 10 days this year. This was the last day upon which, under the act of 1914, levying a road tax of 5 cents a five-cent county could apply for their proportion of the State fund and three out of four commissioners of Roads R. C. Terrell today that they desired to come in, making a total of 102 out of 120 counties participating in the distribution this year.

Heard and Crittendon counties are the only two in Western Kentucky which did not apply. Henderson has to spend \$10,000 in a tuberculosis sanatorium, and is short of funds for 1915. No other non-hera counties in the State neglected to apply, and only three, Green, Metcalf and Cumberland, in the Southern part are left out.

Thirteen mountain counties as a group, failed to apply. They are: Powell, Wolfe, Perry, Floyd, Owsley, Breathitt, Wolfe, Perry, Floyd, Magoffin, Morgan, Knott and Pike.

ORGAN FOR SALE—By the order of the Presbyterian church, apply to Mrs. A. R. Shultz, Mrs. W. H. Leachman.

Sidney, Heas got a rabbit over on Market Road early yesterday. It was a considerable burry, as he wants to catch it before the game season closes.

The rise in Gimlet creek did not do any damage to bridges by becoming over-flowed, they floated off before the high water reached them.

The widow of the Calif Ribs neighborhood was in our market last week. She said she came over to buy a dish pan, but she inspected Dock Hicks more than the fireware.

If a person acts honestly and honorably in all his transactions, there is no reason why he should not live to a respectable old age, provided he does not starve, says R. B. Barlow.

The Hog Food preacher requests that all who attend services at his church, whether members or just ordinary citizens, must refrain from reading the Congressional Record while he is preaching.

The blacksmith is advertising a sale on all good luck horse shoes. Yam Sims bought a whole set of them Saturday and on Sunday called on the Widow.

The blacksmith does not guarantee results. A fellow at Bounding Blows the other day asked R. B. Barlow this question: If he was a hamburger sausage and was about to be served raw, would he rather be served raw, then it would not hurt so bad.

If energy and perseverance have anything to do with success we believe Miss Hot-tetter Hicks will some day become a great singer.

The single both with and without anyone listening to her, and when accompanied by other voices she sings fast and gets through and comes back and helps them over the rough places.

Friday morning the Deputy Constable arrested a man wearing blue pants on a charge of having stolen a calf from a man near Bounding Blows. Before the man had been in jail long the assessor got into a conversation with him; and finding him to be a cousin of his wife he was turned loose on his habes corpus proceedings.

#### Commissioners Sale

In obedience to a decree of the Washington Circuit Court, rendered at the February Term, 1915, in the case of E. A. Mattingly, plaintiff, vs. Taylor, Masters & Co., defendants, I will on THURSDAY, MARCH 11, 1915 at about the hour of 2 o'clock, P. M., at the residence of the premises, sell at public auction the farm of which Taylor Masters resided, known as the Chas. (Lamborn) Farm. This farm is situated about 2 miles East of Springfield between the Mackville and Perryville turnpikes, on Pleasant Run, and contains 120 acres, 3 rods and 14 poles. This is one of the most fertile grain and tobacco farms in Washington County, and has on it a comfortable dwelling, stock and tobacco barn and all other necessary outbuildings. The amount necessary to be made by the sale is \$158.25.

Terms of Sale: The land will be sold on a credit of one and two years. The purchaser will be required to execute the bond for the purchase price, payable to the undersigned commissioner for the benefit of the parties in interest, with good security, bearing interest from the date of sale, with a lien retained on said land with further security for the payment of the purchase price and the bond to have the force and effect of a judgment.

Little Birthday Party

Was given to Beatrice May Vatch in honor of her twelfth birthday at her home on East Main Street, March second nine one hundred and fifteen from 8 to 5 p. m. Covers were laid for 20 guests. The following poem was written for the occasion by Miss Anna Kimball, age 11 years.

A BIRTHDAY WISH This is my first birthday And a joyful time it must be. For the pleasure of others, not self She has called us all to tea.

And here we are so happy With dresses stiffed with starch To celebrate her twelfth birthday On the second day of March.

Our little friend Beatrice May Will entertain us this beautiful day With a mother to guard over us And hosts in white.

To make a very fine birthday All the way around T. will be the best little party That ever came to town.

So many entertainments That ever the day will close But I assure we will be much happier Than when the sun arose.

At the sale of Stanford Sherman, deceased, which was held at his residence on Feb. 21 many articles were sold, among them were 80 pounds of ham, 102 years old, 1500 pounds of soap that was made by Kate Shinn 62 years ago.

While Mr. Croghan was a pensioner, and drew from the Government \$3700, he never secured a cent of his deposits. The interest that has accumulated in First National Bank at Harrodsburg amounts to \$380 at 3 percent. The estate amounted to \$7000.

Many teachers in this section of the county will accept of same school. Such an endorsement proves their worth and value to school and community. People who are interested in educational affairs no longer work for friends and relations to get their school but ask for the most competent talent the county can afford. We are sure Miss Ella D. Shauphey, Supt. of Schools and her Board of Examiners will use every effort to put education upon a higher basis.

A bill will be presented before the next general Assembly for an eight months term and before pay, also for county Supts. of Kentucky to devote their entire time to the school and to receive a salary of \$1000 per annum.

Our next representative will introduce and urge the passage of a bill. We certainly approve of Miss Ella D. Shauphey, Supt. of Schools and thank her for this many things she has done for the school. She stands in the forefront of educational ranks working for the betterment of schools in the county. And when the time comes to elect a new representative we are sure the people will endorse her for re-election.

We would like for the County Road Engineers to visit this section of the county and have something done for this road. We recognize the fact that there is a large mass in other sections. With all that we ask him to visit and place so much place and time as supervisor of county roads in this position.

TIME'S MANY CHANGES

OLD-TIMER BECOMES REMINIS-  
CENT ON THE SUBJECT.

Extinction of the Wild Pigeon on a  
Par With That of the Buffalo—  
But the Sparrow Still  
With Us.

"Time does change the order of things," said one of a number of  
elderly men who were gathered in a  
grocery store over at the Cape one  
evening last week, "and some of the  
changes that are hardly noticed or  
even known by most of the younger  
people of today are in many ways re-  
markable."  
"Take, for instance, the wild pigeon  
that was to be found in almost every  
part of woods in the state when I  
was a boy; there is not one to be  
found in the entire country east or  
west of the Rockies today, and one  
of the departments at Washington has  
offered a large reward for anyone  
who will produce or tell where a nest  
of the wild pigeons can be found."  
"As I said they were very plentiful  
in these parts back in the '90s and  
many were found in the '00s and early  
'10s. But today not one of the kind  
of all this live in the fact that many  
people arrived on the business of trap-  
ping them and out in Barbours a man  
by the name of Plummer did this to  
such an extent that he came to be  
known as 'Pigeon Dave Plummer.' The  
traps were so arranged that hundreds  
of the birds would be caught at the  
spring of the trap, and when one  
came to think that this business was  
carried on all over this country, it is  
easy to see how in years their num-  
bers dwindled and finally died out al-  
together."

"On the other hand," said another  
of the party, "comparatively a few  
years ago we had never heard of such  
a bird as the English sparrow, and  
today they are as thick as white wood  
in a poor man's pasture."  
"Speaking of wild birds," said the  
first speaker, "reminds me of the time  
I went to school way up on the  
now Highland avenue, and white wood  
was just making its appearance in the  
fields. It was not very plentiful,  
however, and I remember that a farmer  
named Dyer told us boys that he  
would give us a cent a dozen for them  
we could pick in his field, for by that  
time it was kept from going to seed.  
Look at the fields now! If one  
could get a cent a dozen for it now,  
a person could get rich in the course  
of a couple of years and not have to  
work but a week or two each year at  
that. Ten, sir, there have been many  
changes in such things as these during  
the last 20 or more years, and are  
still going on."—Portland Express and  
Advertiser.

Circuit Court

The Washington Circuit is  
drawing to a close, however,  
there are several little cases to  
be disposed of during the remain-  
der of the week. On tomorrow  
the case of Commonwealth vs  
Pete Young charged with hog  
stealing will be tried out before  
a jury

On Monday the case of Isaac  
vs Green which involved a suit  
on a note executed for a horse,  
which was alleged to have been  
unsound. The Court after hear-  
ing the testimony, decided for  
the plaintiff.

The case of Cull vs Smith  
which was a controversy over  
the ownership of some tools at-  
tached in the hands of a local  
wrecker, resulted in a judg-  
ment for the debt sued on in  
favor of Plaintiff, and part of  
the tobacco attached, part of the  
proceeds of the attached tobacco  
was adjudged to the wife of Smith.

The case of Moore vs Lay-  
ton, vs Layton, which was a  
suit on promissory note, in dis-  
count of Haydon, and which was  
alleged to have been written, and  
of value. The case is still un-  
der submission

The exception in the case of  
Paris vs Hanby, was tried out  
Thursday before the Court. In-  
volved a case controversy over  
claim of Jas. Hanby, for alleged  
work done for his father before  
his death. His claim amounted  
to about \$900, and after hearing  
proof the court allowed him \$500

In the case of McIntire vs  
Shanahan, Exceptions to the  
report of J. J. Scott of the jury  
were argued to run the line ad-  
judged to be the line between  
the parties was tried out, and  
the Court after hearing proof  
sustained the exceptions, and

Smallpox

Science has devoted years to  
the study of different vari-  
eties, the prevention, and  
the cure of the disease. It is  
now a fact that the disease is  
not so much a matter of life and  
death as it once was. Many  
persons, mistaking prejudice for  
fact, refuse to allow their child-  
ren to be vaccinated, calling the  
law that demands it graft or  
whatever name their vocabulary  
can command. Were they to  
pause for a moment and think,  
they must soon realize that the  
prevention is cheaper than the  
disease. To stop the school in  
this way for a month would  
cost the district something over  
a thousand dollars and not con-

ing the loss to the child-  
ren. This loathsome disease in a  
few costs may be cured de-  
finitely for doctors bill, drugs an  
retirement from business. It is  
not fair that a whole community  
should be compelled to suffer  
for the prejudice of the few as  
has often been the case in the  
past. The Board of Health is to  
be congratulated on enforcing  
the law of vaccination, and it  
is hoped they will carry it out to  
the letter. This thing of the  
business of a community, and the  
school being opened once or  
twice a year on account of the  
spread of some loathsome disease  
due to the carelessness and pre-  
judice of the few should become  
a thing of the past. The parent  
however fond, cannot put his  
selfish views of life, etc., against  
Science which has unselfishly  
devoted time and money that  
she and her child may live a  
healthier, happier life. One  
cannot always be dodging a dis-  
ease, and is liable to run into it  
at any time. The only safe plan is  
to do all one can to prevent it  
wholly or the malignance of it.

A Tribute

A noble and venerated charac-  
ter was that of Sister Mary  
Bevin who was laid to rest in  
the hallowed little cemetery of  
St. Catharine's, Thursday the  
4th inst. Few pass from this  
life so widely loved and honored  
as she was. Her virtues have  
been the shining example and  
her advice the watchword of the  
soul of many of Kentucky's  
noblest women for several gen-  
erations.

Since the early bloom of maid-  
hood she has faithfully and  
unselfishly devoted her life to  
the education of young woman-  
hood, and at the venerable age  
eighty-two laid down her burden  
and crossed life's border.

St. Catharine's has never had  
a finer profound wisdom among  
its members than was hers. To  
the sisters was a noble example  
of patience and fidelity to the  
end. Those who were one of  
her pupils and who are now many  
of them grandmothers and scat-  
tered throughout this broad  
land of ours, were ever loyal to  
her and loved her as someone  
holier even than a mother.

The memory of sister Mary  
Bevin will be sacred in the  
hearts of all who knew her well  
for many years.

Hardin

Mr. Mordcai Benoni Hardin  
died at his home near Texas  
yesterday after a short illness  
of pneumonia. He was a son of  
the late Mr. Hardin, and was born  
and reared in Washington County  
where he spent all his life. He  
was never married. At the time  
of his death he was about fifty  
years of age. He was a man of  
quiet disposition and unassuming  
in manner and stood high  
with all who knew him, his neighbors  
praising him as a neighborly  
good man. Funeral ser-  
vices will be conducted at Beth-  
lehem today.

TITLES OF AFFECTION

ALMOST ALL THE STATES HAVE  
POPULAR NICKNAMES.

Many sources of suggestion, but few  
of the appellations are malicious  
—Geographical Features Have  
Given Rise to Some.

Mostly everyone of the states of the  
Union has a nickname suggestive of its  
chief feature, physical character or  
notable association, and some of the  
states have a distinctive name of two  
or more nicknames, which in most  
cases appear to be equally popular and  
about equally employed in current use.

California is called both "Golden  
State" and "El Dorado," Connecticut  
is the "Nutmeg State," the "Pineapple  
State," and also the "Land of Steady  
Habits," Delaware is the "Blue Hen  
State" and also the "Diamond State,"  
and Georgia is the "Cracker State" and  
also the "Empire State of the South."

The state of Illinois speaks of it both  
as the "Sucker State" and the "Prairie  
State," Kansas answers to the name  
of "Sunflower State," "Central State,"  
and "Jayhawk State," Kentucky is  
known as the "Blue Grass State" and  
Louisiana is the "Pelican State" and  
the "Crescent State."

Minnesota affectionately or famil-  
arly describes their state as the "Goph-  
er State," the "Broad and Butter  
State," and the "New England of the  
West," Michigan is the "Wolverine  
State" and the "Lake State," Nebraska  
is the "Silver State" and the "Sage  
State" and New York is the "Empire  
State" and the "Excelsior State."

If a man speaks of the "Old North  
State" or the "Old Dominion," he means  
the "Tarheel State" he means North  
Carolina; Oregon is the "Beaver  
State" and the "Wolf Post State,"  
South Dakota is the "Swing Cat State" and  
the "Billionaire State," "Washington  
the "Chinook State" and the "Ever-  
green State" and Virginia is repeat-  
edly spoken of as the "Old Dominion,"  
the "Mother of States" and the "Mother  
of Presidents."

The general nickname of Maryland  
is the "Old Line State" and it is  
sometimes called the "Oyster State" and  
the "Terra-pin State." Maine is  
either the "Pine Tree State" or the  
"Lumber State."

Using geographical features as nick-  
names are illustrated in the "Pineapple  
State," Massachusetts, the "Bay  
State," Mississippi, the "Hudson State,"  
Tennessee, the "Hit State," New Jersey  
Vermont, the "Green Mountain State,"  
and West Virginia, the "Panhandle."  
Animals give their names to Arkansas  
the "Bear State," North Dakota, the  
"Flickertail State" and Wisconsin, the  
"Badger State."

Madame Sans-Gene.

In spite of all the nursing and  
mourning in the city, Paris still re-  
tains a touch of gaiety. It is related  
that a certain lady, who had been  
delighted it has always been to make  
society folks laugh, appeared the other  
day as counsel for a woman charged  
with some not too grave misde-  
meanor. She was only a washer-  
woman, she was elderly and plain,  
and the court was distinctly bored.

"Gentlemen," the lawyer exclaimed  
addressing the bench, "gentle-  
men, you cannot find my client  
guilty."

"And why not?" asked the presiding  
magistrate somewhat sharply.

"Because," came the smooth reply,  
"she washes for General Joffre, and it  
is her glorious privilege at this moment  
to be weeping into one of his  
handkerchiefs."

The entire bench of magistrates  
thereupon gave strict attention to the  
case. They not only found the wash-  
woman guilty as charged, but added  
ten days to her sentence for stealing  
General Joffre's handkerchief.

The Proper Kind.

"I wonder what kind of fish the  
student party who have ordered din-  
ner would prefer?"

"As I understand they all belong  
to the boat team, why not give them  
ro?"

The Supreme Test.

"Star actors take the ground that  
Bacon really wrote the Shakespeare  
plays."

"Because the star parts in the plays  
are such star ones."

# Are You Going to the World's Greatest Exposition?

Marvels of Landscape, Sculpture and Architecture, Wonderful Exhibits at Huge Panama-Pacific International Exposition, San Francisco

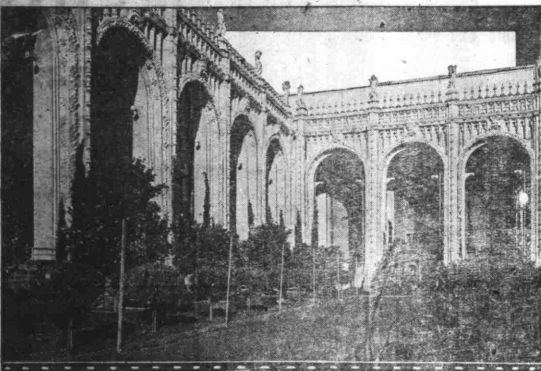

LOW ROUND TRIP RATES AFFORD GREATEST OPPORTUNITY OF A LIFETIME TO TAKE WONDERFUL JOURNEY AND SEE FINEST DISPLAYS OF WORLD'S NATIONS

These pictures at best can indicate but feebly the indescribable marvels presented by the Panama-Pacific International exposition at San Francisco to which the people of all nations are thronging. Forty-two foreign nations, and more than 80,000 individual exhibitors, representing every country on the globe, have sent to this wonderful \$50,000,000 show the best of their present-day achievements which are now displayed in the eleven colossal exhibit palaces and also in the buildings of the state and foreign group, the latter structures being built in most cases in a style of architecture characteristic of the state or nation represented. More than \$10,000,000 has been invested in the "Zoo," the 5,000-foot amusement street of this great fair, where the world's premier showmen are conducting the most wonderful and most original, light-seeing and pure fun, attractions ever assembled for any celebration on earth.

In order to put the opportunity of seeing this most marvelous of all expositions within reach of the greatest number of people the railroads have cut rates in half to and from San Francisco, and the hotel and restaurant associations of the city have agreed to keep their schedule of prices down to normal figures.

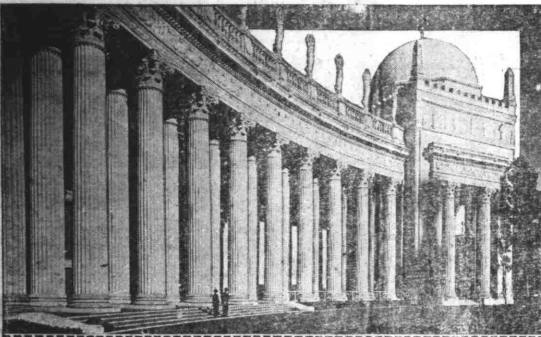

Complete information regarding this wonderful world's fair may be had free for the asking by addressing Manager of the Bureau of Publications, Press Building, Panama-Pacific International Exposition, San Francisco, California, who will forward to any address a beautiful sixty-page booklet, illustrated in colors, containing detailed information regarding the glories of this great celebration and a complete description of the Panama Canal.

TYPICAL SCENE IN ONE OF THE FOUR INNER COURTS

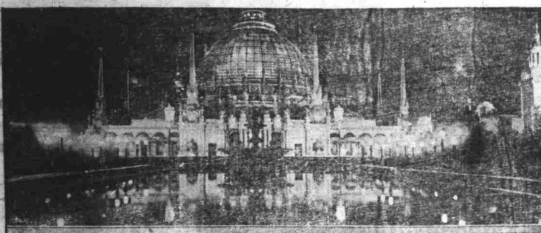

Detail showing the rich and Oriental suggestion in the embellishment of the Court of Abundance, at the Panama-Pacific International Exposition, San Francisco. In this court are orange trees in full bearing and rare flowers.

REFINED BEAUTY SHOWN IN SCULPTURAL ADORNMENT

Details of colonnade in the Court of the Universe, showing frieze adornment and sculptured figures. These corridors are illuminated by the new indirect lighting system, the whole vast area of this court—300 by 500 feet—being lighted in the same manner. Panama-Pacific International Exposition, San Francisco.

SUPERB NIGHT ILLUMINATION OF THE VAST PALACE OF HORTICULTURE

At night the vast glass dome of the Palace of Horticulture is played upon by rays of gigantic searchlight projectors set within the building. The globe, which is the largest hemispherical glass dome in the world and is one of the many marvels of the great Panama-Pacific International Exposition, then assumes all the colors of the rainbow. This photograph shows the great building at night with the rays of the searchlights casting the sign of the Zodiac over its gleaming surface.

If the question of who is the highest officer of the United States government were asked almost anywhere, the answer would promptly answer "the president" and expect to go in the head of the class. But they wouldn't be right, that is, not in one sense. The highest government official in Washington is Charles H. Fletcher, the guard at the top of the Washington monument. His place is 115 feet above the ground and he has held this high position for 35 years. Fletcher is not a hard man to see. One never has to interview the secretary first. He attends to all the business himself. About one hundred and fifty thousand people call on him every year from all parts of the world and during his long service about four million people have seen and talked with him.

"Not once in all these years," he says, "has any serious accident occurred up here, and the principal duty of my high place is to see to it that the service visitors do not mistake the place."

## THE AEROPLANE.

The first successful airplane was made by the Wright brothers of Dayton, O., who made their eventful flight at Kitty Hawk, N.C., in December, 1903. For three years after that there were but two men who could fly—Wright and Orville Wright. Since 1906 the advance has been phenomenal, as the present European war clearly proves. The future of the airplane no man can tell.

Explained at Last.

But—wonder why a woman never throws things straight. Do you suppose it is due to some fault in the construction of her arm?

Dis—Not at all! It is due to the fact that a woman never throws things straight. No, but think of the horrible things that so many of them do.

"So Sefeleigh is studying law." "Yes, and from his looks, I imagine he has been practicing a little too much at the bar."

## PREMONITORY.

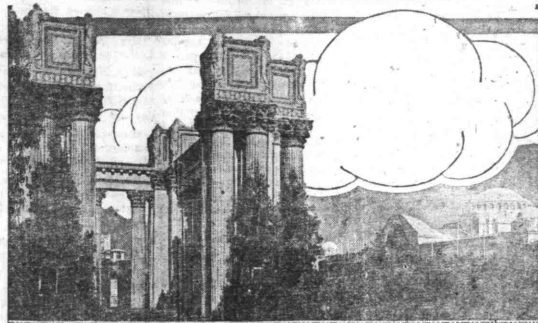

Blah—Why do you call Grouch-leigh the human tadpole? Stohla—Oh, he always feels that he has a kick coming.

## GETTING READY.

Willis—What are you polishing up your gun for? Gillie—On account of this European war.

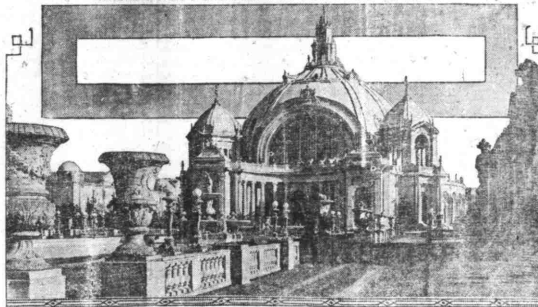

Willis—Surely, you don't think you will be drafted, do you? Gillie—No, but think of the horrible things that so many of them do. "The History of the Great Conflict"—Pack.

ONE OF THE WORLD'S MOST BEAUTIFUL ARCHITECTURAL SIGHTS

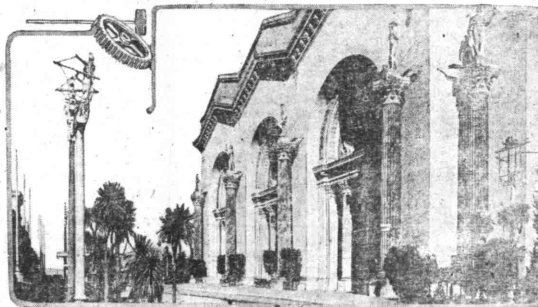

End view of Greco-Roman colonnade extending 1,100 feet before the Palace of Fine Arts, Panama-Pacific International Exposition, San Francisco, and curving in a graceful sweep along the shores of the Fine Arts lagoon. Surmounting these pillars are beautiful figures of women gazing into an urn, expressive of Art and Beauty. Eric Ellershausen is the designer of these groups. Over the foliage and forestation of the Fine Arts lagoon can be seen the Half Dome of Philosophy and the grand central dome of the Palace of Education.

WHERE WORLD'S GREATEST PIPE ORGAN WILL BE HEARD

Festival Hall—Panama-Pacific International Exposition—from the south promenade of the South Gardens, the facade of the Press building showing at the extreme right. On the great organ in this hall—one of the six greatest organs in the world—Camille Saint-Saens will play an original composition, and there will be recitals by Edwin Lemare of London, Wallace Sablin and other masters. This hall will center the intellectual, dramatic, musical and literary life of the exposition at San Francisco many of the 100 conventions of this year making it their assembly place.

THE BUILDING THAT USED FOUR CARLOADS OF NAILS

Where Lincoln Beachey made the world's first indoor airplane flight, the giant Palace of Machinery at the Panama-Pacific International Exposition, San Francisco. This enormous structure is surfaced with imitation Travertine marble, which is used as the Pennsylvania Railroad Depot in New York, and other notable structures.

INSIDE INN AT PANAMA-PACIFIC INTERNATIONAL EXPOSITION

View of architect's perspective of huge hotel on the exposition grounds at San Francisco. Visitors to the great world's exposition at St. Louis in 1904 will remember the huge inside inn at that exposition. There is, a similar large building at San Francisco, with a capacity of accommodating thousands of people. Location of the building is within the exposition grounds, near the great Palace of Fine Arts. The inside inn is a city in itself.

100 distant for amusement. culture and work. The country not too far for walks and picnics, health and happiness. Give the children some seeds and let them dig in the good, brown earth. Encourage them to climb trees, to swim, to notice the birds and flowers. You will not need to save so hard for summer vacation, a vacation at home will be a joy, healthful and cheerful. You will have good friends among your neighbors, plenty of wholesome amusement near at hand. Not only the children, but the other boys and girls will be healthful and eager. The spring is calling—every bird and grass blade and swelling bud. By all means, let us answer. "Yes"—Exchange.

## A PONY SPECIALIST.

"Did I understand you to say that he is an authority on matters relating to the stage?" "No, I merely said that he knows more about stage than any other man I ever met."

## Star is Children's Favorite.

Edna Mason of the Universal company, who is such a favorite with children, has two big dolls and a Teddy bear hanging in her room. They are now entirely new and Edna is a big girl for dolls now, but they were all presented to her by small girls who were happy in the giving. The little girl who presented the Teddy bear drops in occasionally and says: "May I borrow your Teddy bear to play with?"

## "Has she been married long?"

"Well, one of them lasted nearly two years, but the average, I think, has been six months."

## NOT SCARED BY BILLS.

"It is said that women are braver than men. Do you believe it?" "Well, I think none of them would take a chance at marriage."

## EVER HEAR THEET?

"To whom are you writing?" "The ill-fated steamer."

"The explosion came very suddenly."

"The house was packed from pit to dome."

"A level-headed business man."

"Battle-scarred veteran."

"The police are at work on the case."

"The injured man was rushed to the hospital."

"Only well-known tonorial artist."

"Our chauffeur claims he was driving very slowly."

"The bride leaned on her father's arm."

"Good morning, judge."

"Gentlemen of the jury."

"Our well-known society leader."

## It Always Helps

says Mrs. Sylvana Woods, of Clifton Mills, Ky., in writing of her experience with Gardui, the woman's tonic. She says further: "Before I began to use Gardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Gardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill. I wish every suffering woman would give

## The Telephone and Good Roads

The telephone goes hand in hand with good roads.

The telephone overcomes many of the obstacles of bad roads and makes it possible for the farmer and other rural residents to transact business in the city and with neighbors when the roads are impassable.

Progressive farmers are insisting upon good roads and telephones. These two agencies of modern civilization are doing more than all others toward eliminating the isolation of country life. You can have a telephone in your home at very small cost. Send a postal for our free booklet giving complete information.
